# Friends of Pakistan Fellowship — 2027 application

This is an offline copy of the online application, for drafting. Applications are only accepted through the online form at /apply/form — paste your answers in when you are ready. Character limits below are hard limits online.

## Before you start, gather:

- How many people you reached in the last 12 months, and your own definition of "reached".
- The month and year the first person outside your organisation used or received your product, service or programme.
- Your three largest delivery sites or partners, with people reached in the last 12 months and start dates.
- Your total programme cost for the last 12 months (to work out the cost per person).
- Your primary outcome metric and how you measure it.

*G3 (the path to 1M users) is the one long answer — plan five to eight minutes for it.*

## Eligibility (answer yes or no)

[ ] Yes [ ] No Are you the founder, a co-founder, or the senior-most leader with real decision-making power?

[ ] Yes [ ] No Is your organisation past the pilot stage, with real delivery or reach numbers from the last 12 months?

[ ] Yes [ ] No Does your work serve people in Pakistan?

[ ] Yes [ ] No Do you keep basic financial records, such as annual accounts?

[ ] Yes [ ] No Are you fluent in English?

[ ] Yes [ ] No Can you spend seven consecutive days fully present — no email or calls during sessions?

# Section A — Organisation

### A1. Organisation name
*Legal registered name.*
*Max 100 characters.*

---

### A2. Name you operate under, if different (optional)
*Leave blank if the same.*
*Max 100 characters.*

---

### A3. Organisation type
[ ] For-profit
[ ] Non-profit
[ ] Hybrid (both entities)
*Choose one.*

### A4. Legal registration
[ ] Pvt. Limited
[ ] Section 42
[ ] Trust
[ ] Society
[ ] SMC-Pvt Ltd
[ ] US 501(c)(3)
[ ] Other
[ ] Registration in progress
*Choose one.*
*If Other: please specify (max 60 characters).*

### A5. Year first registered
*YYYY. The entity that runs the programme you are applying with.*

---

### A6. Headquarters city and country
*Max 60 characters.*

---

### A7. Where you currently operate
*Only places where you have active users today. Not places you plan to enter.*
[ ] Punjab
[ ] Sindh
[ ] KP
[ ] Balochistan
[ ] ICT
[ ] AJK
[ ] GB
[ ] Outside Pakistan
*Choose all that apply.*
*If Outside Pakistan: please specify (max 60 characters).*

### A8. Sector
*Pick the one where your primary outcome sits.*
[ ] Education & ECD
[ ] Health
[ ] Mental health
[ ] Disability & inclusion
[ ] Justice, legal aid & women’s rights
[ ] Livelihoods & Employment
[ ] Financial Inclusion
[ ] Water & Sanitation
[ ] Agriculture & Food

[ ] Energy
[ ] Climate & Conservation
[ ] Other
*Choose one.*

### A9. Website
*Enter "none" if you do not have one.*

---

### A10. Total annual budget, most recent complete financial year, USD
*Total expenditure, not income, in US dollars (convert from rupees at today's rate). Whole numbers only — no commas or decimals.*
*Digits only. Or tick: [ ] We don't track this.*

---

### A11. Full-time staff today
*Full-time equivalents on your payroll. Exclude volunteers and government staff. Whole numbers only — no commas or decimals.*
*Digits only.*

---

### A12. Part-time, contract and field staff today
*Whole numbers only — no commas or decimals.*
*Digits only.*

---

# Section B — Applicant

**B1. Full name**
*Max 80 characters.*

---

**B2. Role title (and whether you founded or co-founded the organisation)**
*For example, "Co-founder & CEO".*
*Max 60 characters.*

---

**B3. Email**

---

**B4. Phone, with country code**

---

**B5. LinkedIn**
*Enter "none" if you do not have one.*

---

# Section C — Where you actually are today

### C1. Which single statement is true of your product, service or programme today?

*Choose the highest statement that is fully true today, not the one you expect to be true in three months. If two feel true, choose the lower one.*

[ ] It is in pilot: real people use it, in a small number of sites, under our direct day-to-day supervision.
[ ] It runs at steady state in one geography, without the founder involved day to day.
[ ] It runs at steady state in more than one geography.
[ ] Someone other than us — a government body or partner organisation — delivers it using our model or tools.

*Choose one.*

### C2. The month and year the first person outside your organisation used or received your product, service or programme

*Not the month you registered, not the month you started building. The first real person served.*

### C3. Complete this sentence

*The number of different people reached in the last 12 months — not a cumulative total and not a target. "Who" is the person you serve directly: if you train teachers and their students benefit, your answer is teachers. Give the definition of "reached" you really use.*

In the last 12 months, we reached [number — max 9] [who: the people you serve directly — max 40] through [your product, service or programme — max 60] . We count someone as reached when [your definition — max 150] .

### C4. Your three largest delivery sites or partners

*Name them, for example "Government girls' schools, Rawalpindi district", rather than "a government partner in Punjab". Up to 3 rows. Columns: Name of the site, district or partner | People reached there in the last 12 months | Working with them since (MM/YYYY).*

### C6. What does it cost you to serve one person for a year?

*In US dollars. Total programme cost in the last 12 months, divided by the people you reached. A rough figure is fine, e.g. "$18". Write "not tracked" if you do not know.*
*Max 40 characters.*

# Section D — The problem

### D1. Who are the people you serve?

*Demographics only — do not describe the problems they face here. Cover age range, gender split, income level, rural/peri-urban/urban, occupation, education, language. If you serve organisations rather than individuals, describe those organisations and the people they serve.*
*Max 500 characters.*

### D2. Name the problems you address

*Only what you are addressing today. "Lack of empowerment" is not a problem a person experiences. "A mother walks 4km to the nearest clinic and is turned away twice out of three visits" is.*
*Up to 3 rows. Columns: The problem, as something a person experiences | How many people in Pakistan face it | Where that number comes from ("we don't track this" allowed for counts).*

# Section E — The intervention and how it works

**E2a. Walk one user through it — first contact**

*How does a user find out about you and get started?*
*Max 200 characters.*

**E2b. Walk one user through it — the core interaction**

*What does the user do, how often, for how long each time?*
*Max 200 characters.*

**E2c. Walk one user through it — the end**

*What is different for that user when they are done?*
*Max 200 characters.*

**E3. Complete this chain**

*The last blank should name the same thing as your primary metric in Section F.*

We do [what you do — max 120] !' which causes [the user — max 120] to do [what they do — max 120] differently !' which produces [the outcome — max 120] !' which we measure as [your measure — max 120] .

# Section F — Evidence

### F1. Which statement describes your strongest evidence today?

*A study in progress is not a study completed, and a study you are running yourself is not an independent one. We select organisations at every level on this list. What we cannot work with is a claim we cannot place on it.*

[ ] 1. User testimonials and anecdotes
[ ] 2. Usage or output data only — how much we delivered, and to whom
[ ] 3. Before-and-after outcome data on our own users, with no comparison group
[ ] 4. Outcome data with a non-randomised comparison group
[ ] 5. A randomised or quasi-experimental study we are running ourselves, in progress
[ ] 6. A randomised or quasi-experimental study we ran ourselves, completed, results in hand
[ ] 7. An independent third-party evaluation, completed — not an RCT
[ ] 8. An RCT by an independent third party, in progress
[ ] 9. An RCT by an independent third party, completed, results in hand

*Choose one.*

### F3. What is your primary metric?

*One number, not a list. An outcome, not an output — "teachers trained" is an output; "percentage of Grade 3 students reading at grade level" is an outcome. State the unit. If your primary metric is currently an output, say so plainly and give it anyway.*
*Max 120 characters.*

### F4. How do you measure it?

*Instrument or method; frequency; who collects it, by name; the sample or population; whether you have a baseline.*
*Max 500 characters.*

# Section G — Scale: who does it, who pays for it

**G2. What will be your primary mechanism for reaching 1M+ users by 2030?**

*Examples: Digital Platform (App/SMS/Voice), Government Partnership/Adoption, Training of Trainers, Human Delivery, B2B Partnerships, Enterprise Sales.*
*Max 40 characters.*

**G3. Scale. What is your path or strategy to reach 1M users by 2030? Ideally, who would pay for user #1,000,001 — a government, a market, or a donor?**

*The longest answer we ask for anywhere. Spend it on specifics rather than ambition: the institutions you need by name and where each relationship actually stands today; what has to happen for the next one to say yes; the numbers you expect by 2027, 2028 and 2030; and who pays once donor money is out of the picture. "We will partner with government and scale nationally" tells us nothing.*
*Max 1100 characters.*

# Section H — How you found us

**H1. How did you hear about the fellowship?**

[ ] Website
[ ] Social media
[ ] Referred by another organisation
[ ] Email from Taleemabad
[ ] Friends of Pakistan
[ ] A funder
[ ] A previous fellow
[ ] Other

*Choose one.*
*If Referred by another organisation / Other: please specify (max 80 characters).*

**H2. Anything we should know that no question above let you tell us? (optional)**

*Optional. Not a place to restate your case; it is for context that has no home in the questions above.*
*Max 400 characters.*

# Confirmation

[ ] Every number in this application is one I can show you the source for. I understand that shortlisted applicants have a 45-minute conversation with the Friends of Pakistan Fellowship team, and that the conversation starts from these answers.
